

Electrical Engineering

The Electrical Engineering subject test consists of multiple-choice questions from the foundation courses of EE program. The students may choose to attempt questions from any two of the following three sections. The details of the three sections are given below:

Section1: Signals and Intelligent Systems:

Signals and Systems

Control Systems

Communication Systems

Section2: Circuit and Electronics:

Circuits I & II

Devices and Electronics

Digital Logic Circuits

Section 3: Energy and Power Systems

Electro-mechanical systems

Electrical power systems

Electromagnetic Fields and Waves
