Introduction to Forensic Science (CHEM 103)

Credit Hours: 3

Instructor: Muhammad Zaheer

Schedule: Monday to Friday (10.15 AM – 12.15 PM)

This is an introductory course with an aim to make the subject of forensic science clear and comprehensible to a wide variety of students from diverse academic backgrounds. Forensic Science introduces various aspects of the forensic laboratory and the forensic sciences used in collection, preservation and the analysis of physical evidence to solve crimes. The course will provide a descriptive overview with case studies to shed light on the role of the forensic Lab and the Criminalist/forensic scientist in this process with hands-on activities.
