Computational Problem Solving (CS 100)

Credit Hours: 3

Instructor: Junaid Haroon Siddqiui

Schedule:

• LEC: Monday to Friday (11.00 AM – 12.15 PM)
• LAB: Monday to Friday (2.45 PM – 4.45 PM)

This course provides a conceptual and practical introduction to programming. The focus is on programming rather than the particular choice of programming language, with general principles being brought out through the study of ‘C/C++’. This course will equip students with tools and techniques to implement a given problem programmatically.
